## Hoststar iPhone App – Manage informations mobile!

24 March 2011 / 4.00 p.m.

**We are mobile now! – The Hoststar iPhone App is a new development for our webhosting customers and offers the possibility to manage your hosting package informations with your iPhone.**

Benefit as a Hoststar customer from selected and helpful functions of our official iPhone App. Useful informations can also be watched on the road with it. Wether you carry out a change of address, retrieve invoice or request PHP settings – our Hoststar App is your constant current companion. In assistance of a Monitoring function, you have the possibility to check the availability of all services on your server anywhere and anytime. Would you like to know which meaning every single service has? Our Hoststar iPhone App is even helping you further here.

Check the availability of your desired domain today! With the integrated whois query, you get different information about the availability or detailed information about the holder of the registered domain name.

As an iPhone owner, take advantage of this free offer and stay up to date all over the world.

This app has been specially created for Hoststar customers. It can not be used with other hosting providers.

Hoststar – a brand of the Multimedia Networks AG – stands for innovation, expertise and dynamism, and was founded in 1996. The Multimedia Networks AG has developed positively every year since then and is today one of the ten largest Swiss hosting providers. The company operates 480 servers with ultra-modern technology in data-processing centres in Switzerland, Germany and Austria. The entire infrastructure is monitored in our NOC (Network Operating Center). Hoststar attaches great importance to training and constantly puts this into practice in its own Learning Center. SMEs, private individuals, associations and public authorities are now part of our customer base and greatly appreciate our reliable service. The company currently takes care of 70,000 domains at home and abroad.
