

Press release

Software Center – latest versions available now!

24 February 2010

Hoststar offers you added-value in your webhosting with the latest versions of applications in the Software Center.

As a Hoststar customer, you can profit from innumerable automatically installable programs for your hosting package, and this completely free of charge. Increase the attractiveness of your website with forums, guestbooks, e-commerce and more, and design your website with a CMS tool - simple, fast and installed with one click!

If you are a Hoststar customer, you can access any of the dozens of preconfigured applications that are available in your Hosting Control Panel. Select the desired program and with just one click it is already installed in your webhosting account. You can then use your time to advantage in the design and realisation of your website!

Hoststar – a brand of the Multimedia Networks AG – stands for innovation, expertise and dynamism, and was founded in 1996. The Multimedia Networks AG has developed positively every year since then and is today one of the ten largest Swiss hosting providers. The company operates 480 servers with ultra-modern technology in data-processing centres in Switzerland, Germany and Austria. The entire infrastructure is monitored in our NOC (Network Operating Center). Hoststar attaches great importance to training and constantly puts this into practice in its own Learning Center. SMEs, private individuals, associations and public authorities are now part of our customer base and greatly appreciate our reliable service. The company currently takes care of 70,000 domains at home and abroad.
